Press Release

Press Release: July 18, 2008

For Immediate Release

Laser Photonics LLC Expanding Worldwide Customer Service Locations

Laser Photonics LLC, a global leader in laser equipment and kits for marking and cutting applications, announced today the completion of its plan to expand its customer service worldwide. Due to the rapid growth of Laser Photonics and the rising demand for its standard product line around the globe, it was necessary to set up satellite customer service centers throughout the world.

As of today, Laser Photonics is now represented in over ten countries including China, Mexico, Singapore, India and Turkey. "This expansion plan was started in late February and was completed earlier this month. It was a necessary step in order to give our customers and partners a quicker response time and the support they need" stated Rick Landeau, Customer Service Manager. These new locations will also give Laser Photonics a competitive advantage over smaller laser system manufacturers and have a direct impact on its already increasing sales.

Laser Photonics executives have already started on the second expansion plan which will include locations in at least 12 new countries. As manufacturing becomes more global, it is essential for manufacturers to be able to service existing equipment and reduce installation time. It is Laser Photonics ultimate goal to be able to install or service any of its equipment within 24 hours of the report.

[Laser Photonics](http://www.laserphotonics.com), www.laserphotonics.com, is the industry leader in developing high-tech Fiber and CO2 laser marking, cutting and engraving systems for a variety of industries such as; [aerospace](#), [automotive](#), [medical](#), solar semiconductor etc. We exceed in manufacturing high quality, performance driven turnkey solutions for these and many other industries.

Safe Harbor Act: This release includes forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 that involves risks and uncertainties including, but not limited to, the impact of competitive products, the ability to meet customer demand, the ability to manage growth, acquisitions of technology, equipment, or human resources, the effect of economic business conditions, and the ability to attract and retain skilled personnel. The Company is not obligated to revise or update any forward-looking statements in order to reflect events or circumstances that may arise after the date of this release.
