Press Release

Laser Photonics Experiences Phenominal Growth.

LAKE MARY, FL., August 5, 2008 - The recent burst of growth experienced by Laser Photonics Incorporated has opened up many new positions and has increased their hiring to an all-time high. The superior laser product lines offered by Laser Photonics have become widely recognized throughout North America leading to more large accounts and positions to fill.

Laser Photonics clients range from all industries including automotive, medical, aerospace, etc. In such a fast changing industry, Laser Photonics has not only managed to provide innovative products but consistently bettered the quality and services. The efforts to better the quality have been rewarded aptly by the increase in clientele.

The CEO of the company Demitri Nikitin says, "There are other companies that deliver similar products, what sets us apart is our superior technology and our price competitiveness. Our efforts have been to work with our clients to provide state of the art cutting and marking systems at a reasonable cost. I am glad that these efforts are now recognized and acknowledged by the industry."

There has already been an increase in the staff to cope with this demand. Laser Photonics in-house recruiters are now working around the clock to ensure that the right candidates are placed in the shortest time. Professionals in sales, marketing, engineering and business development are invited to contact the staffing department to apply for these new job opportunities. Resumes or requests for information can be sent directly to info@laserphotonics.com.

All eyes are on this company and rest assured we will be hearing a lot about it in the coming years. All prospective employees in and around Florida are invited to visit the office or they can talk to personnel at Tel: 407.829.2613 and discuss the benefits of having Laser Photonics as their employer. www.laserphotonics.com.
